

"HACKER IX"

March 2010

Dear Rochester Adams Golf Booster:

The Rochester Adams Golf Program is sponsoring the 9th Annual "Highlander Hackers" 4 person scramble on Sunday, May 16, 2010. Boulder Pointe Golf Club in Oxford and their professional staff will host this year's event. Tournament registration will commence at 9:30 am with a shotgun start at 10:00 am. Eighteen holes of golf will be followed by an outstanding lunch/dinner. The infamous "Hacker Raffle" will complete the perfect golf outing for you and your golfing buddies.

The friends, parents and boosters of the Adams Golf program have established the "Hacker" as a premier golf outing. The site of Hacker IX, Boulder Pointe Golf Club, offers 18 challenging golf holes to test the abilities of this year's teams. Players will have the opportunity to compete in one of two divisions. The big hitters that sign up for the **HIGHLANDER DIVISION** will be playing from the green tees, over 6700 yards. Mixed or all female teams will be competing in the **GOLD DIVISION** with all ladies playing from the silver tees and all men from the White tees.

A fierce competitive tradition has been established with the first eight Hacker tournaments. This year's tournament will continue and improve upon that tradition. Once again several contests of skill and luck are scheduled to make for an exciting, and possibly lucrative, day.

It is our hope that you will be able to participate in this year's event by forming your own four person scramble team. Build your "winning" team with all males, all females, or mix it up. All team members must be adults, no high school students allowed. Graduates, faculty and Adams boosters and friends have been invited to play. What better way to spend an early spring Sunday than with a day of golf, great food, and seeing friends, old and new.

Rochester Adams is synonymous with golf excellence. Championships are the norm, not the exception. The continued success of the Adams Golf program is dependent upon the "Hacker". Hacker funds are used to pay for tournament fees, hotel rooms, greens fees, practice range fees, golf balls and much more. "Hacker IX" will insure future program improvements for the entire Adams Golf program.

Initial response to this outing has been outstanding. A field of 124 golfers made Hacker VIII a tremendous success and this year's event will be even bigger. Your entry form is enclosed. Mark your calendar, call your friends and send in your entry. Don't delay. See you May 16th!

Birdies & Eagles!!
